SUMMONS.

STATE OF MINNESOTA, ss.

County of Crow Wing, ss.

OLE BRANS, Plaintiff,

vs.

CHARLES K. HENRIKSON, sometimes called C. K. Hendrickson, Defendant.

The State of Minnesota to the above named Defendant:

You are hereby summoned and required to answer the complaint of the Plaintiff in the above entitled action, which is filed in the office of the Clerk of the District Court of the Fifth Judicial District, in and for the County of Crow Wing, State of Minnesota, and to serve a copy of your answer to the said complaint on the Plaintiff, at his office in the City of Brainerd, in said county, within twenty days after the service of this summons upon you, exclusive of the day of such service; and if you fail to answer the said complaint within the time aforesaid, the Plaintiff in this action will take judgment against you for the sum of One Hundred and Seventy-Three Dollars and Fifty-Five Cents, with interest at the rate of seven per cent per annum, from the Fourth day of November, 1890, together with costs and disbursements of this action.

Dated November 7th, 1890.

G. F. FLEMING, Plaintiff's Attorney, Brainerd, Minn.

McGILL COLLIER, Montreal, Quebec, March 8, 1893.—This is to certify that I have examined the form and contents of Dr. Leduc's Periodical Pills of Paris, France. I have concluded that if this combination will not excite the menses, that there is nothing in medicine that will do it. It is a 113 grain combination, containing all the well known harmless drugs that act upon the generative system. I know them to be positively harmless and safe for all kinds of persons on any cause. I have used them in my practice for the last four years, and found that the most stubborn cases yield. Yours, R. L. KYDD, M. D. or S. for 85, American Pill Co., Royal Proprietors, Spencer, Ia. How Will It Work?

John Goodnow, of the state central committee, says: "There is a line of legislation that I think the democrats will have to father that will surprise some of them a little. I take it that the democrats and the alliance will expect to unite in most of their legislation. Now when the alliance wants something the democrats will have to support it. It is a fact that the alliance is largely Scandinavian and it is also a fact that the Scandinavians as a class are prohibitionists. To oppose this element the alliance party will have to attempt at least to secure some temperance legislation. I am inclined to think that they will insist upon submitting the question of the prohibition of the liquor traffic of the people. They may not be so radical but they will want something in the shape of temperance legislation. If it is not submission I believe that we will have local option in Minnesota."

LOUISIANA has a law which requires railroads to have cars sufficient to separate whites and blacks.

FIVE hundred children under ten years of age were taken into custody last year in London as drunk and incapable.

THERE is still a dispute over the election of the fourth representative from this district and the chances are favorable for a contest between R. C. Dunn and E. E. Price.

S. M. OWEN, alliance candidate for governor, is opposed to any fusion of his party in the legislature. He thinks they should nominate their own speaker, let the other parties do the same and leave the result to be determined in open session.—St. Cloud Times.

Well Worth Seeing.

With Donnelly in the senate, there will be lively music. In fact, the entertainment at St. Paul this winter will be worth seeing.—Verdala Journal.

Yes, Bro. McMillan, but a good many of the boys were unable to procure season tickets to the side-show.

The Price of Wheat.

Before Election, \$1.10 Per Bushel. After Election, \$1.10 Per Bushel.

What a "glorious" democratic victory it was to be sure. The farmers begin to appreciate it by this time.—Exchange.

He Got There.

A telegram from Tacoma says: After a week's contest between the mayor, the appointing power, and the council, the confirming power, W. F. Zwickley, formerly sheriff of Polk county in Minnesota, and sergeant-at-arms of the senate of that state, was to-night elected chief of police of Tacoma under the new charter.

An Indian Murder.

Gus Boleau reported at the United States marshal's office to-day that about ten days ago, on the Mille Laes reservation, an Indian by the name of Bein-way-gwanah, billed Sah-gatchewa, another Indian, with a knife. The murderer has not yet been arrested, but the authorities are out in search for him. The Indians were engaged in a drunken row when the killing occurred.—Times.

Very Pleasant.

Soon after we spoke of Geo. Geissel as a candidate for senator some of our Brainerd friends remarked that it was a very foolish move, and that it was an utter impossibility to overcome the heavy republican majority in this district. Will they please tell us where that majority was when the polls closed on election day?—Little Falls Herald.

The Brainerd republicans who were instrumental in electing Mr. Geissel are very much pleased to have these democratic sheets slur them after what they have done. It is a very pleasant feeling after you have turned in and helped a man out to have his friends turn in and kick you.

A Rare Joke.

Mr. Owen who ran for governor in Minnesota, says he did not expect to be elected, and would not accept the office if he had been elected. Mr. Owen is a pretty good man we have always thought, but he is even truer something when he makes such an assertion.—Grand Forks Herald.

Jugged the Sheriff.

On Friday evening of last week the sheriff from Morris, this state, went to Staples and placed under arrest Frank Rosini and another man for a crime alleged to have been committed at Morris some weeks ago. The sheriff handcuffed his prisoners together and paraded them around town, stopping in every saloon and drinking. It was not long before the sheriff got disgraced with the exhibition he made with the prisoners, paid their fines and the sheriff let them go.—Wadena Tribune.

An Outside Opinion.

Minnesota has elected a "green" legislature, and affairs are expected to be in a fine middle when the men get together at the opening of the session. Some of the alliance men from backwoods counties know as much about Greek as they do about the business to come before them as law makers.—Superior Telegram.

Who Did It.

The Todd County Argus takes a very generous view of the situation in this district by the following article which appeared in its last issue:

The democratic victory in this legislative district is entirely due to the determination of a few to force objectionable men upon the party because there was a good party majority to back them. The delegation from this county went to Little Falls with a pretty good knowledge of the condition of this county and had their advice been heeded a republican delegation would have been sent to the legislature as usual. As is often the case, the party interests were sacrificed to private ambitions and the entire ticket including that staunch friend of the interests of the laboring class, E. C. Dunn, was swept under the current.

The assertion that "had their advice been heeded a solid republican delegation would have been elected," is all moonshine for the fact will forever stand in black and white that it was Todd county that nominated J. C. Flynn, and that after voting for him in the convention they knifed him at the polls.

Peculiar Proceedings.

No one will wonder that Morrison county gave the democrats large majorities when they read the following from the Transcript:

There were some queer proceedings by the election officers in different parts of the county if all reports are true. In one town it is claimed the judges adjourned the work of counting and took a sleep, some going to a hotel for a night's rest.

Not too Good to Work.

Supt. Eldred, of the Lake Superior Terminal Transfer Railroad company, has descended from his lofty perch and assumed the role of switchman for a day or two, or until an extra engine crew can be employed.

The company's facilities are overtaxed. The yards are badly blocked with cars, and it was found necessary yesterday to put two more engines in service. After considerable difficulty Mr. Eldred succeeded in manning one of the engines, but in spite of all that was done in the way of advertising and telegraphing, a full crew could not be secured for his second engine. There was one man short, and he has been acting in that capacity for two days, and has not yet been heard to grumble.

The over-crowded condition of the yards is due to the increased shipments of coal and the heavy receipts of wheat.—Superior Telegram.

Alliance Strength.

WASHINGTON, Nov. 19.—[Special.]—The exact strength of the Farmers' Alliance in the next congress is not a definite or positive quantity, so much of its force being counted by democrats, but it may be estimated anywhere from 20 to 40. This is not enough to give the alliance people the balance of power, as they expected. Nevertheless, though they will not be able to turn a vote one way or the other, their influence must be felt, chiefly because of the growing strength of their organization. The best informed public men do not expect that the sub-treasury scheme will ever be put into effect nor that the government control of corporations will be adopted, but what is looked forward to as possible is a very great inflation of the currency, in compliance with the farmers' demand. Old financial theories may have to yield something to prevent the entire overthrow of conservatism. It is urged by many that the majority of congress should do something to placate the farmers, and chiefly that the republicans must exert themselves to secure an inflation of the currency. There is for more money, and its seems that something must be done in this congress or in the next to satisfy the demand. It is urged upon the republicans that if something is not done to satisfy the clamor, it will grow so as to seriously threaten the party.

Concerning Our New Congressmen.

Chief Clerk J. R. Howard, of the house of representatives, has this to say about Kittle Halvorsen, congressman-elect from the Fifth district: "It is true that he is of Norwegian parentage. It is also true that he served as a private soldier for three years during the late war, coming home with an honorable record. He made a homestead claim in western Stearns county, and has been a successful farmer there for 20 years or more. I have known him during this period, and never heard a word against him. In '87 we tendered him the republican nomination in the house from that district—which he accepted, and was elected without opposition, and would have been re-elected had he notified his friends there that he so desired, before other parties took the field. I do not believe the interests of our state would have been better served had Whiteman been elected instead of Halvorsen."

"What sort of a man is he?"

"Well, wait and give him a chance; he is a good farmer, and fairly well posted—not liable to act hastily or with any crowd against his convictions, and you can bet your hat nickel that the gang of southern brigadiers who will organize the next home, won't bulldoze Kittle Halvorsen into supporting any measure that he doesn't approve. I think he will act with the republicans, and by keeping in line with the administration, he will be able to serve his district and state the better."

As to the Game Laws.

The Evening Tribune says: The Game and Fish Protective Association, of Minnesota, the organization which was formed in April last, composed of the sportsmen from various parts of the state, is about to renew its activity. Its object is to protect the game of the state from the ruthless destruction of hunters, out of season.

Its first step will be to secure a re-vamping of the game and fish laws of the state. It says in a circular: "A state game warden is a prerequisite to the enforcement of game laws, and we want, by concerted action, to secure the appointment of this official, and also obtain the appointment of deputies enough to thoroughly police the state, and protect in reality—not theoretically—the game and fish of the state of Minnesota." J. M. Regan, of Regan Bros., W. M. Brackett and W. P. Andrus, are the active members in Minneapolis who have pushed the work of the Association. Judge J. O. Pierce has for some time been gathering points upon a revision of the game laws and when the legislature meets an attempt will be made to secure their passage. Mr. Regan said yesterday that the game laws were in reality a blessing to everybody. In the state of Maine the game attracts thousands of tourists during the summer and they spend an immense amount of money there every year. He believes that the many lakes and rivers which mark Minnesota make it one of the best natural game countries in the Union. Game is still plentiful and if it is possible to prevent its wholesale destruction now Minnesota will always be a Mecca for the sportsmen and the state will be the gainer by millions on account of it.

No Monopoly.

One error which farmers make is in thinking that no one else besides themselves is ever hard up or suffers from injustice. It is not surprising that they think so, for so many people go about the country telling them how they suffer that they seem to forget that people living in towns and cities have to endure hardships as well as themselves. They seem to forget that merchants and business men lie awake nights as well as farmers wondering and worrying where they are going to get the money to pay the bills which are pressing them. They have interest and taxes to pay as well as farmers. They worry not only over the debt which they have to pay, but over the bills which they have to collect for goods sold on time. No class of people have suffered more in the last two weeks than the bankers. The strain on them all over the world has been terrible, and many have lost the savings of a lifetime by the shrinkage of value. Even that much abused wheat buyer and elevator man has suffered, and entire fortunes have been wiped out by the decrease in the price of grain. Farmers have their share of ills and hardship, but they should not think that they have a monopoly. There are others who are in the same boat.—Fergus Falls Journal.

People Wonder

WHEN they find how rapidly health is restored by taking Ayer's Sarsaparilla. The reason is that this preparation contains only the purest and most powerful alteratives and tonics. To thousands yearly it proves a veritable elixir of life.

Mrs. Jos. Lake, Brockway Centre, Mich., writes: "Liver complaint and indigestion marred my life, and I came near ending my existence. For more than four years I suffered untold agony. I found myself a well woman, and hardly had strength to drag myself about. All kinds of food distressed me, and only the most delicate could be digested at all. Within the time mentioned several physicians treated me without giving relief. Nothing that I took seemed to do any permanent good until I began the use of Ayer's Sarsaparilla, which has produced wonderful results. Soon after commencing to take the Sarsaparilla I could see an

Improvement

In my condition, my appetite began to return and with it came the ability to digest all the food taken, my strength improved each day, and after a few months of faithful attention to your directions I found myself a well woman, able to attend to all household duties. The medicine has given me a new lease of life, and I cannot thank you too much."

"We, the undersigned, citizens of Brockway Centre, Mich., hereby certify that the above statement, made by Mrs. Lake, is true in every particular and entitled to full credence."—O. P. Chamberlain, G. W. Waring, C. P. Wells, Druggists.

"My brother, in England, was, for a long time, unable to attend to his occupation, by reason of sores on his foot. I sent him Ayer's Sarsaparilla and the testimonials it contained induced him to try Ayer's Sarsaparilla. After using it a little while, he was cured, and is now a well man, working in a sugar mill at Brisbane, Queensland, Australia."—A. Aitwell, Sheet Lake, Ontario.

There is still a dispute over the election of the fourth representative from this district and the chances are favorable for a contest between R. C. Dunn and E. E. Price.

S. M. OWEN, alliance candidate for governor, is opposed to any fusion of his party in the legislature. He thinks they should nominate their own speaker, let the other parties do the same and leave the result to be determined in open session.—St. Cloud Times.

Well Worth Seeing. With Donnelly in the senate, there will be lively music. In fact, the entertainment at St. Paul this winter will be worth seeing.—Veradale Journal.

The Price of Wheat. Before Election, \$1.10 After Election, 92 Cents Per Bushel. What a "glorious" democratic victory it was to be sure. The farmers began to appreciate it by this time.—Exchange.

He Got There.

A telegram from Tacoma says: After a week's contest between the mayor, the appointing power, and the council, the confirming power, W. F. Zwickley, formerly sheriff of Polk county in Minnesota, and sergeant-at-arms of the senate of that state, was to-night elected chief of police of Tacoma under the new charter.

An Indian Murderer. Gus Boleau reported at the United States marshal's office to-day that about ten days ago, on the Mille Lacs reservation, an Indian by the name of Bain-wagonabe, killed Sah-gatchew, another Indian, with a knife. The murderer has not yet been arrested, but the authorities are out in search for him. The Indians were engaged in a drunken row when the killing occurred.—Times.

Very Pleasant.

Soon after we spoke of Geo. Geissel as a candidate for senator some of our Brainerd friends remarked that it was a very foolish move, and that it would be an utter impossibility to overcome the heavy republican majority in this district. Will they please tell us where that majority was when the polls closed on election day?—Little Falls Herald.

The Brainerd republicans who were instrumental in electing Mr. Geissel are very much pleased to have these derogatory sheets slur them after what they have done. It is a very pleasant feeling after you have turned in and helped a man out to have his friends turn in and kick you.

A Rare Joke.

Mr. Owen who ran for governor in Minnesota, says he did not expect to be elected, and would not accept the office if he had been elected. Mr. Owen is a pretty good man we have always thought, but he is Owen Trust something when he makes such an assertion.—Grand Forks Herald.

Jugged the Sheriff.

On Friday evening of last week the sheriff from Morris, this state, went to Staples and placed under arrest Frank Rosini and another man for a crime alleged to have been committed at Morris some weeks ago. The sheriff handcuffed his prisoners together and paraded them around town, stopping in every saloon and drinking. It was not long before the sheriff got pretty full, and the citizens of Staples, disgusted with the exhibition he made with the prisoners, paid their fines and the sheriff let them go.—Wadena Tribune.

An Outside Opinion.

Minnesota has elected a "green" legislature, and affairs are expected to be in a fine muddle when the men get together at the opening of the session. Some of the alliance men from backwoods counties know as much about Greek as they do about the business to come before them as law makers.—Superior Telegram.

How Will It Work?

John Goodnow, of the state central committee, says: "There is a line of legislation that I think the democrats will have to father that will surprise some of them a little. I take it that the democrats and the alliance will expect to unite in most of their legislation. Now when the alliance wants something the democrats will have to support it. It is a fact that the alliance is largely Scandinavian and it is also a fact that the Scandinavians as a class are prohibitionists. To appease this element the alliance party will have to attempt at least to secure some temperance legislation. I am inclined to think that they will insist upon submitting the question of the prohibition of the liquor traffic of the people. They may not be so radical but they will want something in the shape of temperance legislation. If it is not submission I believe that they will have local option in Minnesota."—Ex.

A General Opinion.

The editor does not know enough to pound sand into a rat hole. He was feeling around a horse's teeth this week when the horse shut down on his right thumb, taking half of the nail off.—Hubbard Bulletin.

Who Did It.

The Todd County Argus takes a very generous view of the situation in this district by the following article which appeared in its last issue:

The democratic victory in this legislative district is entirely due to the determination of a few to force objectionable men upon the party because there was a good party majority to back them. The delegation from this county went to Little Falls with a pretty good knowledge of the condition of this county and had their advice been heeded a republican delegation would have been sent to the legislature as usual. As is often the case, the party interests were sacrificed to private ambitions and the entire ticket, including that grumbler friend of the interests of the laboring class, R. C. Dunn, was swept under by the current.

The assertion that "had their advice been heeded a solid republican delegation would have been elected," is all moonshine for the fact will forever stand in black and white that it was Todd county that nominated J. C. Flynn, and that after voting for him in the convention they knifed him at the polls.

Peculiar Proceedings.

No one will wonder that Morrison county gave the democrats large majorities when they read the following from the Transcript:

There were some queer proceedings in the election officers in different parts of the county all reports are true. In one town it is claimed the judges of election burned the ballots immediately after counting, in another some of the voters indulged in drunken rowing during the day and upset the ballot box, spilling the tickets on the floor, and in Little Falls city the judges adjourned the work of counting and took a sleep, some going to a hotel for a night's rest.

Not Too Good to Work.

Supt. Eldred, of the Lake Superior Terminal & Transfer Railroad company, has descended from his lofty perch and assumed the role of switchman for a day or two, or until an extra engine crew can be employed. The company's facilities are overtaxed. The yards are badly blockaded with cars, and it was necessary yesterday to run two more engines in to service. After considerable difficulty Mr. Eldred succeeded in manning one of the engines, but in spite of all that was done in the way of unloading and telegraphing, a full crew could not be secured for the second engine. There was one man short, and Mr. Eldred, realizing that business would be seriously delayed if the engine was allowed to stand idle, donned the overalls and climbed the rest board of the engine to act as foreman of the crew. He has been acting in that capacity for two days, and is heard to grumble. The over-crowded condition of the yards is due to the increased shipments of coal and the heavy receipts of wheat.—Superior Telegram.

Alliance Strength.

WASHINGTON, Nov. 19.—[Special.]—The exact strength of the Farmers' Alliance in the next congress is not a definite or positive quantity, so much of its force being counted by democrats, but it may be estimated anywhere from 20 to 40. This is not enough to give the alliance people the balance of power, as they expected. Nevertheless, though they will not be able to turn a vote one way or the other, their influence must be felt, chiefly because of the growing strength of their organization. The best informed public men do not expect that the sub-treasury scheme will ever be put into effect for that the government control of corporations will be adopted, but what is looked forward to as possible is a very great inflation of the currency, in compliance with the farmers' demand. Old financial theories may have to yield something to prevent the entire overthrow of conservatism. It is urged by many that the majority of congress should do something to placate the farmers, and chiefly that the republicans must exert themselves to secure an inflation of the currency. The cry is for more money, and it seems that something must be done in this congress or in the next to satisfy the demand. It is urged upon the republicans that if something is not done to satisfy the clamor, it will grow so as to seriously threaten the party.

Concerning Our New Congressman.

Chief Clerk J. R. Howard, of the house of representatives, has this to say about Kittle Halvorsen, congressman-elect from the Fifth district: "It is true that he is of Norwegian parentage. It is also true that he served as a private soldier for three years during the late war, coming home with an honorable record. He made a homestead claim in western Stearns county, and has been a successful farmer there for 20 years or more. I have known him during this period, and never heard a word against him. In '87 we tendered him the republican nomination in the house from that district—which he accepted, and was elected without opposition, and would have been re-elected had he not notified his friends there that he so desired, before other parties took the field. I do not believe the interests of our state would have been better served had Whiteman been elected instead of Halvorsen."

"What sort of a man is he?" "Well, wait and give him a chance; he is a good farmer, and fairly well posted—not liable to act hastily or go with any crowd against his convictions, and you can bet your last nickel that the gang of southern brigadiers who will organize the next home, won't bulldoze Kittle Halvorsen into supporting any measure that he doesn't approve. I think he will act with the republicans, and by keeping in line with the administration, be able to serve his district and state the better."

As to the Game Laws.

The Evening Tribune says: The Game and Fish Protective Association of Minnesota, the organization which was formed in April last, composed of the sportsmen from various parts of the state, is about to renew its activity. Its object is to protect the game of the state from the ruthless destruction of hunters, out of season. Its first step will be to secure a re-vamping of the game and fish laws of the state. It says in a circular: "A state game warden is a prerequisite to the enforcement of game laws, and we want, by concerted action, to secure the appointment of this official, and also obtain the appointment of deputies enough to thoroughly police the state, and protect in reality—not theoretically—the game and fish of the state of Minnesota." J. M. Regan, of Rogan Bros., W. M. Brackett and W. F. Andrus, are the active members in Minneapolis who have pushed the work of the Association. Judge J. O. Pierce has for some time been gathering points upon a revision of the game laws and when the legislature meets an attempt will be made to secure their passage. Mr. Regan said yesterday that the game laws were in reality a blessing to everybody. In the state of Maine the game attracts thousands of tourists during the summer and they spend an immense amount of money there every year. He believes that the many lakes and rivers which mark Minnesota make it one of the best natural game countries in the Union. Game is still plentiful and if it is possible to prevent its wholesale destruction now Minnesota will always be a Mecca for the sportsmen and the state will be the gainer by millions on account of it.

When they find how rapidly health is restored by taking Ayer's Sarsaparilla. The reason is that this preparation contains only the purest and most powerful alternatives and tonics. To thousands yearly it proves a veritable elixir of life.

Mrs. Jos. Lake, Brockway Centre, Mich., writes: "Liver complaint and indigestion made my life a burden and came near ending my existence. For more than four years I suffered untold agony. I was reduced almost to a skeleton, and hardly had strength to drag myself about. All kinds of food distressed me, and only the most delicate could be digested at all. Within the time mentioned several physicians treated me without giving relief. Nothing that I took seemed to do any permanent good until I began the use of Ayer's Sarsaparilla, which has produced wonderful results. Soon after commencing to take the Sarsaparilla I could see an

IN the annual report of the secretary of the State Board of Health of Massachusetts "la grippe" is treated at length. As a result of his investigation, the secretary reports that human intercourse is as potent in spreading the disease as mephitic communication. He estimates that 730,000 wage-earners in that State took the disease, that 191,100 of these had to leave work, and that the time lost was at least 985,500 days.

SYSTEMS for distributing power in cities from a central station are becoming more and more common. Steam, electricity and compressed air are the common agents, but Paris has a system which is the reverse of that employing compressed air. The motors operate by a vacuum, created by immense air pumps at the central station. The cost per horse power per hour is twenty-three cents, about the same as with the ordinary gas engine, when illuminating gas is used.

GROVER CLEVELAND'S law practice has led him to Washington to plead before judges some of whom he himself appointed.

PLAZA Car Pullman is to build a \$1,000,000 hotel in Chicago in time for the World's Fair. Mr. Pullman's plan is to catch the public, whether it is riding or resting.

BIRKBEALL is buying Christmas presents for a few personal friends in Canada, but owing to circumstances over which he has no control he will be obliged to contribute somewhat in presenting them.

A WRITER in the London Spectator thinks that if parrots could be made to breed in captivity, the parent birds might teach their young to talk, just as the canaries teach their accomplishment to their little ones.

GARBALDI'S representatives have sold the island of Capri, the general's home, where he is buried, to the Italian Government for \$60,000. They reserved the house, garden and tomb from the sale.

SEVERAL roads prohibit the use of tobacco by any employee on a passenger train. The Chicago, St. Paul and Kansas City forbids smoking by any employee while on duty or about the stations, shops and warehouses. The Union Pacific makes the same provision.

ACCORDING to an English exchange the custom of tree-planting by school children on a certain day in each year known as "Arbor day," has been imported from America into Australia, in accordance with the decision of the minister for public instruction.

The only white haired women who make Alpine ascents are Germans. French women look at the mountains from the valley hotels. American women go where mules can take them. The British matron is carried to view points in a chair by six porters, but the German woman of almost any age will climb.

Mrs. Kosa H. Lowe, of Sumner, Wash., has invented a clamping device by means of which bed coverings can be securely fastened to the bed, so that a sleeping child or sick person will be unable to kick or throw them off. These clamps are attached to the head board, one on either side, and to the side rails.

The German government proposes to have its women telegraph and telephone employees wear uniforms—natty blue affairs, with gilt collar and facings and bright buttons. In this way each girl will be labeled, as it were, and it is claimed that the costume will protect her from insult as she passes to and from her work.

The wildest dreamer could not have predicted a century ago anything so incongruous as has happened during the past week—the arrival at Jaffa, in far-off Asia Minor, of three American locomotives, to be used on the railroad to Jerusalem. Is the day approaching when the camel, that beast of burden for unknown ages, shall go to join the dodo and the megatherium?

PEOPLE have no idea of the fatal speed of express trains. It is a common thing to see their buffers bespattered with blood after a long and quick run. The noise of their approach disturbs the small birds from the hedgerows, and as they fly across the line along comes the thunder at a speed of which there is no conception and dashes them to pieces.

One of the most interesting pieces of engineering completed this year, says the Railway Age, is the cog road to the summit of Pike's Peak. The total ascent from Manitou, the initial station, is 7,600 feet in a distance of nine miles. The maximum grade is twenty-five per cent, and 18,477 feet, or thirty-nine per cent, of the entire line is on a curve, the sharpest curves being sixteen degrees.

A SHORT story is a difficult thing to write. The author therefore must capture the reader in the first sentence and retain his attention to the end. You have freed your overburdened soul by writing novels long-drawn out will never prove your genius until you have told a yarn in compressed form. To make an impression on a reader in a few thousand words is a greater feat than to bore him by a three-volume bore-drome.

IN the annual report of the secretary of the State Board of Health of Massachusetts "lagrippe" is treated at length. As the result of his investigation, the secretary reports that human intercourse is as potent in spreading the disease as atmospheric communication. He estimates that 730,000 wage-earners in that State took the disease, that 191,100 of these had to leave work, and that the time lost was at least 985,500 days.

SYSTEMS for distributing power in cities from a central station are coming more into use every day. Steam, electricity and compressed air are the common agents, but Paris has a system which is the reverse of that employing compressed air. The motors operate by a vacuum, created by immense air pumps at the central station. The cost per horse power per hour is twenty-three cents, about the same as with the ordinary gas engine, when illuminating gas is used.

THE NATION'S CAPITAL.

It is stated that the pension bureau during the last quarter paid out \$64,000,000. No estimate of the amount of \$600,000,000 made for pensions the current fiscal year. The large amount is due to the pension bill passed last session and increases made of pensions already granted.

PEOPLE OF NOTE.

Gen. David B. McKibben, U. S. A., on the retired list, died in Washington of cancer of the stomach. He served with distinction in the Mexican and Indian wars and in the war of the rebellion. He was sixty years old.

MINOR ACCIDENTS.

A passenger train on the Reading road jumped the track near Lebanon, Pa. Seven persons were injured, but only two seriously hurt.

At Eau Claire, Wis., a three-year-old son of John Fulton choked to death by a piece of food while eating at the supper table, dying before assistance could be rendered.

Fire destroyed a large tobacco factory in New York City, valued at \$200,000. Ten thousand working people are deprived of employment by the conflagration.

Employer Mr. West, of New York, was run over by a horse and killed by five brick repainers. James Finley was instantly killed. John Carney had his legs cut off and the horse killed, about thirty minutes after the fatal accident.

WAYS OF THE WICKED.

William G. Yaffie, a railroad conductor, killed his wife and committed suicide at Corning, N. Y., by jumping from a train.

At New Brunswick, N. J., Stanislaw Virshovsky, established his father to death during a quarrel. The boy says that his father killed him with a knife.

At Batavia, N. Y., during a row, Sam Smith was shot and killed by three brothers. The body was shot and the body was shot.

At a dance in Avondale, Ala., Nathan Terry and Washington Brown quarreled about a girl. Brown stepped up and shot him twice, killing him almost instantly.

At Latrobe, Pa., John Frisby, a railroad engineer, was shot and killed by a horse.

At Kansas City, Special Policeman David H. Green shot and killed a policeman.

A socialist meeting held near Ravenna, Italy, culminated a fight in which several persons were injured. One man was killed and a number of others were injured.

Abdullah George Deaver, for six years an exemplary bookkeeper in the Franklin National bank at Baltimore, has been arrested charged with the embezzlement of over \$4,000.

At San Francisco, Augustine Olague, a shoe black, reproached his wife for associating with bad women. A quarrel followed and he shot her in the neck. He then cut his own throat with a razor. Both will probably die.

A direct accusation was made against J. Jones of Kansas City, who committed suicide, that he was responsible for the shooting of \$100,000 in the defense fund.

At La Salle, Ill., Martin Ryan was stabbed to death by his son-in-law, Edward C. Ryan, in a drunken quarrel. Ryan had twenty-six wounds on his body. Both men were committed to the hospital.

While going home from a party meeting at Mount Olive church near Washington, Ind., James Hopkins, aged sixteen, and Adrian McKracken, aged seventeen, became involved in a quarrel. McKracken, who was armed with a knife, killed him almost instantly.

Abdullah George Deaver, for six years an exemplary bookkeeper in the Franklin National bank at Baltimore, has been arrested charged with the embezzlement of over \$4,000.

At San Francisco, Augustine Olague, a shoe black, reproached his wife for associating with bad women. A quarrel followed and he shot her in the neck. He then cut his own throat with a razor. Both will probably die.

A direct accusation was made against J. Jones of Kansas City, who committed suicide, that he was responsible for the shooting of \$100,000 in the defense fund.

At La Salle, Ill., Martin Ryan was stabbed to death by his son-in-law, Edward C. Ryan, in a drunken quarrel. Ryan had twenty-six wounds on his body. Both men were committed to the hospital.

While going home from a party meeting at Mount Olive church near Washington, Ind., James Hopkins, aged sixteen, and Adrian McKracken, aged seventeen, became involved in a quarrel. McKracken, who was armed with a knife, killed him almost instantly.

A. Evans, a millionaire manufacturer of Springfield, Ohio, after an escape from an arrest in Cincinnati, was shot and killed

From Mr. Chris. Schroder, who was in New York Mills on Monday, we learn that a man was killed by the cars on Saturday night, one mile east of the Mills. The wheels cut off one leg at the hip and both feet. The body was found Sunday morning by three strangers who happened to be coming up the track. The body was taken to town and placed in a wooden box, and the coroner notified. The coroner found that the man had been under the influence of drink when killed, and from appearances was suffering from delirium tremens. He had no money or papers in his possession to denote who he was or where he came from. The remains were buried in the box in which it was placed, when first found.—Ferber Bulletin.

An Unfortunate Accident.

Fred. Clark, formerly a resident of this city, was shot at Mandan on Monday evening, and he died from the effects of the wound on Wednesday afternoon at the Sanitarium in this city. The shooting was an accident and occurred in a public hall in that city where a meeting was in progress to see what could be done to protect the city from the Indians during the recent scare in that region. The room was crowded and directly behind Mr. Clark was a man who had a 45-60 navy revolver in a belt strapped onto him, and in the crush the gun was displaced and fell onto the floor and was discharged, the ball striking the deceased below the shoulder blade and passed through his body diagonally coming out near the right breast. The wounded man was brought to the Brainerd sanitarium for medical treatment, but nothing could be done for him and he died on Wednesday afternoon. He was conscious up to Wednesday morning and rallied just before his death enough to take an affecting leave of his wife and children.

The deceased was well known in this city where he lived for some years and was in the employ of the Northern Pacific, many of his relatives living here, among whom are George and John Clark, brothers. A wife and four small children are left to mourn his death. The funeral will take place this afternoon at 2:30 from the Baptist church.

Averages for the Season.

The averages made by the different members of the Gun Club are published below and are for the season of 1890. No averages were given parties who shot in less than six regular shoots, or at less than 90 birds. Those who shot at 200 or more birds come in for a chance on the two prizes, a Winchester rifle donated by I. U. White, and a handsome hunting coat donated by Ed. H. White. By glancing over these figures it will be easy to discover who carried off the prizes:

Gypsy Fair.

The ladies of St. Paul's (Episcopal) Church will hold their annual bazaar on Monday and Tuesday next, at the rink. This year the special feature of the bazaar will be a gypsy fair, which they believe will prove as satisfactory and entertaining to their friends as have their previous efforts.

A large variety of useful and ornamental articles will be offered for sale, and an excellent opportunity presented to procure Christmas gifts at reasonable rates. Everything will be sold at a fair price. An admission fee of ten cents will be charged. Supper will be served from 5:30 until 8.

The dining room has been enlarged and separate entrances will admit to this room and the main hall, so that those who wish only supper will not be called upon to pay the fee for admission. Prices: Admission to gypsy fair 10 cents; supper, 25 cents; supper with oysters, 35 cents; oysters 15 cents.

A Quiet Wedding at St. Matthias.

A quiet wedding occurred near this place on Tuesday last, the contracting parties being Mr. Ammi Edson and Miss Lydia B. Chaffins. The wedding took place at the residence of Mrs. Mary R. Edson, in the presence of a few invited relatives and friends. The wedding was an informal affair, and the happy couple immediately began housekeeping in the pretty home which Mr. Edson had prepared for his bride. Both the bride and groom are well known here and are highly respected. The bride is from Victor, Wright county, this state, where, we understand, most of her relatives reside. Mr. Edson is from Vermont, but is now one of the rising pioneer farmers of Crow Wing county. The couple enter upon their married life under very auspicious circumstances.

One of the best wishes of all who know them. The marriage ceremony was performed by the writer, a justice of the peace.

St. Matthias, Minn., Nov. 21, '90.

A Turkey Shoot.

The Brainerd Gun Club has decided to give a grand turkey shoot on Thanksgiving Day, on their grounds, at the Driving Park, providing the weather is favorable. The shoot will be at bluebirds for turkeys. Anyone, whether members of the club or not, can shoot, and a general invitation will be extended to the public.

Notice.

The ladies of the First Congregational church will give the "Festival of the Seasons with their Respective Holidays," in the rink Wednesday and Thursday, December 3rd and 4th. Both fancy and domestic articles will be for sale. Supper from 6 to 10 p. m. All are cordially invited to attend.

Bids for Fuel.

Sealed proposals will be received at the office of the county auditor up to 10 a. m., Tuesday, December 2nd, for 25 cords of green and 10 cords of dry jack pine wood, to be delivered to poor farm. The board reserves the right to reject any or all bids.

LOUIS TACHE,
Co. Auditor.

The City Council.

The city council met on Monday evening with a full board, excepting Ald. Howe. The minutes of the last regular meeting were read and approved. A communication from M. R. Shedd was read in which he tendered his resignation as superintendent of electric lights, was read and the resignation accepted. The following claims against the city were allowed:

L. E. Weaver.....\$17 75
Larson & Walters.....1 00
James Bent.....1 50
A. T. Daggett.....18 00
A. W. Winters.....9 00
W. A. Graham.....10 00
Tribune.....5 63
M. Robinson.....6 00
Richard Ross.....3 00

Bill of Gull River Lumber Co. was referred to the finance committee. The matter of placing the dirt taken from the excavation for the basement of the Catholic church was referred to the street committee. The hiring of a superintendent of electric lights was referred to the committee with power to act. Council adjourned.

They Were Hornets.

We were waiting on the depot platform in a new town in Alabama, and as the dozen of us walked up and down some one espied a wasp's nest hanging on a bush across the track. He pointed it out as a wasp's nest, but a short, solid man, who had a head like a cannon ball and a jaw denoting great firmness of character, at once replied:

"I beg your pardon, sir, but you have made the very common mistake of classing the wasps with the hornets. That is a hornet's nest."

"And I beg your pardon, sir," protested the other, who was a planter, "but hornets don't nest that way. They build mud houses under the eaves of the old buildings, and one won't sting you unless you pick him up. My niggers declare that no wasp can sting if he wants to, while, on the contrary, a hornet—"

"I beg to differ with you, sir," interrupted the solid man; "that is a wasp's nest. You are right about the wasp being a peaceful insect, and I think I will take that nest along for a souvenir. They say they are a sure cure for quinsy."

"Do you know a hornet from a wasp?"

"I should remark!"

"Well, when you get through with that nest I want you to tell me whether it was occupied by hornets or wasps. Gentlemen, look out for yourselves!"

He started for the woods and was followed, and when we reached a safe distance and looked back, the man with the iron jaw was just cutting off his head which he held the nest. He held it up and called to us to come and see it, but his call was followed by a yell which would have done credit to a cannibal warrior with a double Adam's apple in his throat. The big yell was followed by a series of hoots, whoops, exclamations and ejaculations, and these were accompanied by gymnastics of an extraordinary character. He jumped, dodged, twisted and cowered, and finally started down the track on a gallop. Seventy minutes later, and just as the train whistled, he came out of the woods, dead lame, one eye shut, his nose as big as his fist, and his head bare.

"Hornets or wasps?" queried the planter.

"Hornets, by thunder!" groaned the victim as he hurried to get his valise.—New York Sun.

There is a great deal of talk in Washington on the proposition to build a new residence for the president.

There seems to be general agreement on this proposition, that the present white-house would do very well for the executive mansion or for a private residence for the president, but that it is entirely inadequate for both purposes.

Not Wearing the Watch.

Chicago Tribune: "We are continually reading of the check of a drummer," said one of them in the Palmer rotunda Saturday evening. "Why, they are not deuce high compared to some of the country merchants we meet. They want us to give them every point asked for, and they won't believe half you say. Now, I've sold clothing for twelve years, and my customers know that I do the best I can by them. The cheapest man I ever met keeps a big general store in Iowa, near Sioux City. I have never sold to him, and when I started out last trip the firm promised me a gold watch if I could sell to this chap. I made up my mind to sell him a small bill, even if I put myself at a personal loss of a hundred or so. His name is Wolf. It is about two weeks ago that I went into his store and introduced myself. I talked for an hour and finally he decided to look over my line. Then he picked out a few goods and asked for my best terms. Of course I gave him thirty days' time.

"That's too short," he said. 'I don't want your goods.'

"Thirty days is all anyone would allow you," I pleaded.

"Then keep your clothing," said he, and heek away.

"I went about town and returned in the evening. I was so exasperated I would have given him the goods."

"Well," I said to him, "I've decided to let you take the goods."

"Don't want them."

"I will give you your own terms."

"How's that?"

"Take the goods, Mr. Wolf, and pay for them when you get good and ready. Just suit yourself about the year."

"Is that the best you can do?" he asked.

"You notice I'm not wearing a gold watch."

Religion in Russia.

Most educated Russians have no religion at all. The clergy are divided into two classes, the black and the white. The white clergy, or parochial priests, are in a very low state of culture and material well-being, which condition has been brought about by long years of existence under a baneful system. In the days of serfdom the priesthood formed a caste of their own, the nobility refusing to recognize the clergy, and the nobles, and despised by the nobles, and the peasants, being serfs, could not recruit the ranks of the priesthood. They were degraded by the peasants and the nobles, and the nobles, in contempt is illustrated by Mr. Leroy Beaulieu. It is customary for all laymen to show outward respect for the church by kissing the hands of its ministers. On one occasion a village priest, receiving a grand duke at the door of his church, and not being used to such exalted personages, hesitated to offer his hand. The grand duke, becoming impatient, exclaimed: "Stretch out your paw, you fool!"

The main revenue of the parish priests is derived from church fees, and the weak, poverty-stricken priest is tempted to fawn on his congregation with the hope of helping his income. The black clergy include highly educated gentlemen, polite scholars and men of the world, and they enjoyed the respect of society.

The beauty of the Greek church service is dwelt upon, especially the marvelous chanting of the choir. The human voice is unaided by any instrumental music, as to the Russian mind it would be impious to worship God by machinery.

Silk and Silkworms.

Comparatively few silk cocoons are raised in this country—not more than 10,000 pounds in all, probably—of which amount the United States government purchases about one-half for experimental purposes. In France every farmer's wife raises a few pounds of cocoons every spring and makes money by selling them, and in this way, mainly, is the silk crop of that country grown. There are few occupations more easy or agreeable for a woman than the raising of cocoons, and it offers a new source of income to wives and daughters in all sections of the country. The way to get started in it seems easy enough, says New York Export and Finance. Any woman in the United States who will take the trouble to write to the silk bureau of the department of agriculture this month, with a request for silk-worm eggs, will receive, during the month following, a quarter of an ounce of them, which will contain about 9,000, in a little box. The department will also furnish information as to the best and most approved method of rearing and raising the cocoons. With two ounces of eggs a woman ought to be able to raise 50 or 60 pounds per annum between the middle of March and the first of June. Cocoons are worth over \$1 a pound now. When the great demand for cocoons arrives at its surely will before long, some of those interested in the matter at the silk bureau of the department of agriculture to think that more than 100,000 women will find very profitable employment in supplying these cocoons to the silk factories in this country.—Charles ton, S. C., World.

George Kennan's Clothes.

George Kennan's suit of prison clothes and the iron chain which he brought with him from Siberia to America have already brought him in \$20,000, and they are adding to his bank account every night. In the course of every lecture on exile he appears upon the stage in this prison garb, and he finds it a successful feature.—Frank G. Carpenter's Letter.

Not Wholly Ornamental.

Every seat in the North Street car was taken, and four or five persons were standing. One of the latter was a young woman, who stood near the middle of the car. A tall young man, rather too slim for his height from an athletic point of view, rose from his seat near the rear door and stepped forward to inform the young woman, who was looking the other way, that there was a seat for her. As he did so a man dropped into it.

"I beg your pardon," said the man.

"I intended it for the lady," said the young fellow.

"But I got it," retorted the other, with a sneer.

He was the bigger man, but the young fellow's hand descended on his shoulder and he was on his feet and on the platform before he knew it.

"Conductor! conductor!" he cried, but the conductor had a far-away look in his eyes, and was interested in something going on down the street. The man was in the street before he had time to call out again.

The hero—for he was a hero in the eyes of all the passengers by this time—re-entered the car, and, lifting his hat, politely said:

"Madame, there's a seat for you."

And the passengers were so tickled that they actually began to clap their hands. The young man simply smiled, and said:

"College athletics are of some value now and then."

Then he leaned up against the front door and became absorbed in a paper, while the young woman watched him admiringly.

CHARLES K. HENRICKSON, sometimes called C. K. Hendrickson, Defendant.

The State of Minnesota to the above named Defendant: You are hereby summoned and required to answer the complaint of the Plaintiff in the above entitled action, which is filed in the office of the Clerk of the District Court of the Fifth Judicial District, in and for the County of Crow Wing, and State of Minnesota, and to serve a copy of your answer to the said complaint on the undersigned, at his office in the City of Brainerd, said County, within twenty days after the service of this summons upon you, exclusive of the day of such service; and if you fail to answer the said complaint within the time aforesaid, the Plaintiff in this action will take judgment against you for the sum of One Hundred and Seventy-Three Dollars and Fifty-Five Cents, with interest at the rate of seven per cent. per annum, from the Fourteenth day of November, 1890, together with costs and disbursements of this action.

Dated November 17, 1890.

A telegram from Tacoma says: After a week's contest between the mayor, the appointing power, and the council, the confirming power, W. F. Zwickie, formerly sheriff of Polk county in Minnesota, and sergeant-at-arms of the senate of that state, was to-night elected chief of police of Tacoma under the new charter.

An Indian Murder.

Gus Boleau reported at the United States marshal's office today that about ten days ago, on the Mille Lacs reservation, an Indian by the name of Bain-way-gwonabe, billed Sah-gatch-ewe, another Indian, with a knife. The murderer has not yet been arrested, but the authorities are out in search for him. The Indians were engaged in a drunken row when the killing occurred.—Times.

Very Pleasant.

Soon after we spoke of Geo. Geissel as a candidate for senator, some of our Brainerd friends remarked that it was a very foolish move, and that it would be an utter impossibility to overcome the heavy republican majority in this district. Will they please tell us where that majority was when the polls closed on election day?—Little Falls Herald.

The Brainerd republicans who were instrumental in electing Mr. Geissel are very much pleased to have these democratic shots slung their after what they have done. It is a very pleasant feeling after you have turned in and helped a man out to have his friends turn in and kick you.

A Rare Joke.

Mr. Owen who ran for governor in Minnesota, says he did not expect to be elected, and would not accept the office if he had been elected. Mr. Owen is a pretty good man we have always thought, but he is Owen Trust something when he makes such an assertion.—Grand Forks Herald.

Jugged the Sheriff.

On Friday evening of last week the sheriff from Morris, this state, went to Staples and placed under arrest Frank Rosini and another man for a crime alleged to have been committed at Morris some weeks ago. The sheriff handcuffed his prisoners together and paraded them around town, stopping in every saloon and drinking. It was not long before the sheriff got pretty full, and the citizens of Staples, disgusted with the exhibition he made with the prisoners, paid their fines and the sheriff let them go.—Wadena Tribune.

An Outside Opinion.

Minnesota has elected a "green" legislature, and affairs are expected to be in a fine muddle when the men get together at the opening of the session. Some of the alliance men from backwoods counties know as much about Greek as they do about the business to come before them as law makers.—Superior Telegram.

How Will It Work?

John Goodnow, of the state central committee, says: "There is a line of legislation that I think the democrats will have to father that will surprise some of them a little. I take it that the democrats and the alliance will expect to unite in most of their legislation. Now when the alliance wants something the democrats will have to support it. It is a fact that the alliance is largely Scandinavian and it is also a fact that the Scandinavians as a class are prohibitionists. To appease this element the alliance party will have to attempt at least to secure some temperance legislation. I am inclined to think that they will insist upon submitting the question of the prohibition of the liquor traffic of the people. They may not be so radical but they will want something in the shape of temperance legislation. If it is not submission I believe that they will have local option in Minnesota."—Ex.

A General Opinion.

Who Did It.

The Todd County Argus takes a very generous view of the situation in this district by the following article which appeared in its last issue:

The democratic victory in this legislative district is entirely due to the determination of a few to force objectionable men upon the party because there was a good party majority to back them. The delegation from this county went to Little Falls with a pretty good knowledge of the condition of this county and had their advice been heeded a republican delegation would have been sent to the legislature as usual. As is often the case, the party interests were sacrificed to private ambitions and the entire ticket, including that staunch friend of the interests of the laboring class, R. C. Dunn, was swept under by the current.

The assertion that "had their advice been heeded a solid republican delegation would have been elected," is all moon-shine for the fact will forever stand in black and white that it was Todd county that nominated J. C. Flynn, and that after voting for him in the convention they knifed him at the polls.

Peculiar Proceedings.

No one will wonder that Morrison county gave the democrats large majorities when they read the following from the Transcript:

There were some queer proceedings by the election officers in different parts of the county if all reports are true. In one town, it is claimed the judges of election burned the ballots immediately after counting, in another some of the voters indulged in drunken rows during the day and upset the ballot box, and in Little Falls city the judges adjourned the work of counting and took a sleep, some going to a hotel for a night's rest.

Not Too Good to Work.

Supt. Eldred, of the Lake Superior Terminal & Transfer Railroad company, has descended from his lofty perch and assumed the role of switchman for a day or two, or until an extra engine crew can be employed. The company's facilities are overtaxed. The yards are badly blocked with cars, and it was found necessary yesterday to put two more engines in the yard. Mr. Eldred succeeded in manning one of the engines, but in spite of all that was done in the way of advertising and telegraphing, a full crew could not be secured for the second engine. There was one man short, and Mr. Eldred, realizing that business would be seriously delayed if the engine was allowed to stand idle, donned the overalls and climbed the rest board of the engine to act as foreman of the crew. He has been acting in that capacity for two days, and has not yet been heard to grumble. The over-crowded condition of the yards is due to the increased shipments of coal and the heavy receipts of wheat.—Superior Telegram.

Alliance Strength.

WASHINGTON, Nov. 19.—[Special.]—The exact strength of the Farmers' Alliance in the next congress is not a definite or positive question, so much of its force being counted by democrats, but it may be estimated anywhere from 20 to 40. This is not enough to give the alliance, people the balance of power, as they expected. Nevertheless, though they will not be able to turn a vote one way or the other, their influence must be felt, chiefly because of the growing strength of their organization. The best informed public men do not expect that the sub-treasury scheme will be adopted, but what is looked forward to as possible is a very great inflation of the currency, in compliance with the farmers' demand. Old financial theories may have to yield something to prevent the entire overthrow of conservatism. It is urged by many that the majority of congress should do something to placate the farmers, and chiefly that the republicans must exert themselves to secure an inflation of the currency. There is for more money, and its means that something must be done in this congress or in the next to satisfy the demand. It is urged upon the republicans that if something is not done to satisfy the clamor, it will grow so as to seriously threaten the party.

Concerning Our New Congressman.

Chief Clerk J. R. Howard, of the house of representatives, has this to say about Kittle Halvorsen, congressman-elect from the Fifth district: "It is true that he is a Norwegian parentage. It is also true that he served as a private soldier for three years during the late war, coming home with an honorable record. He made a homestead claim in western Stearns county, and has been a successful farmer there for 20 years or more. I have known him during this period, and never heard a word against him. In '87 we tendered him the republican nomination in the house from that district—which he accepted, and was elected without opposition, and would have been re-elected had he notified his friends there that he so desired, before other parties took the field. I do not believe the interests of our state would have been better served had Whiteman been elected instead of Halvorsen."

"What sort of a man is he?"

"Well, wait and give him a chance; he is a good farmer, and fairly well posted—not liable to act hastily or with any crowd against his convictions, and you can bet your last nickel that the gang of southern brigadiers who will organize the next home, won't bulldoze Kittle Halvorsen into supporting any measure that he doesn't approve. I think he will act with the republicans, and by keeping in line with the administration, he will be able to serve his district and state the better."

As to the Game Laws.

The Evening Tribune says: The Game and Fish Protective Association of Minnesota, the organization which was formed in April last, composed of the sportsmen from various parts of the state, is about to renew its activity. Its object is to protect the game of the state from the ruthless destruction of hunters, out of season. Its first step will be to secure a re-vamping of the game and fish laws of the state. It says in a circular: "A state game warden is a prerequisite to the enforcement of game laws, and we want, by concerted action, to secure the appointment of this official, and also obtain the appointment of deputies enough to thoroughly

PEOPLE have no idea of the fatal speed of express trains. It is a common thing to see their buffers bespattered with blood after a long and quick run. The maximum grade is twenty-five per cent, and 18,477 feet, or thirty-nine per cent, of the entire line is on a curve, the sharpest curves being sixteen degrees.

A SHORT story is a difficult thing to write. The author therefore must capture the reader in the first sentence and retain his attention to the end. You have freed your overburdened soul by writing novels long drawn out you will have to write in compressed form. To make an impression on a reader in a few thousand words is a greater feat than to bore him in a three-volume broadside.

In the annual report of the secretary of the State Board of Health of Massachusetts "lagrippe" is treated at length. As a result of his investigation, the secretary reports that human intercourse is as potent in spreading the disease as atmospheric communication. He estimates that 730,000 wage-earners in that State took the disease, that 191,100 of these had to leave work, and that the time lost was at least 985,500 days.

SYSTEMS for distributing power in cities from a central station are coming more into use every day. Steam, electricity and compressed air are the common agents, but Paris has a system which is the reverse of that employing compressed air. The motors operate by a vacuum, created by immense air pumps at the central station. The cost per horse power per hour is twenty-three cents, about the same as with the ordinary gas engine, when illuminating gas is used.

THE NORTHWEST

A Summary of the Important Events of the Week in the Northwestern States

MINNESOTA.

Mrs. R. Church has been appointed postmistress at Waconia, Goodhue county. Large numbers of deer are being shot by hunters in the northern part of the state. The city council of St. Paul is discussing the subject of compelling telegraph companies to put their wires underground. A son of J. H. Adams, of Heaver Creek, has been seriously injured by a fall from a horse. Mrs. Anna Klutz, an old lady of St. Paul, was struck by an electric car in that city and fatally injured.

A spark from a steam thrasher destroyed four stacks of wheat belonging to Henry Miller, a farmer living near Lake Benton. Alexander Michaelson, of St. Charles, was run over by a locomotive on the Great Northern, and sustained injuries from which he is not likely to recover. The various banks of Goodhue county are estimated to contain deposits amounting to \$700,000, all to the credit of the citizens of the county.

Wm. Halverson, a professional wrestler, is held at East Grand Forks, charged with robbing Joe Hughes, a local property owner of the Minnesota City Thresher company. Albert Muske, of Minden, Benton county, was thrown from his wagon during a rain storm and sustained injuries from which he died in a few hours.

Mrs. J. Crawford, living one mile east of Watertown, was instantly killed by a runaway team. Mrs. J. Crawford, one of the oldest settlers in this part of the country.

Albert Muske, a farmer residing in Minden, Benton county, died in St. Cloud from injuries received in a fall from a horse. A single man and about thirty years old.

Willie Lee and Henry Bernhart, two small boys, were bound over to the criminal court. Cloud on a charge of attempted state-racking.

Two boys near Beaver Creek, Rock county, named Pierce and Weston got into a scuffle over a revolver, and the piece was accidentally discharged, the ball passing through another player's leg, inflicting a serious wound.

Three fishermen and a Norwegian got into a scuffle at Laverne, resulting in the arrest of one of the fishermen. Later they came together again and the Norwegian gave the fishermen a highlander in the eye, requiring the eye to be removed.

The big Norseman in under arrest. James G. Richardson, of Lake City, has entered suit against the Minneapolis Harvester company for \$10,000 damages. The plaintiff owned a patent grain binder which he alleges the defendants used on their machinery without any right and have refused to pay any royalty.

After many weeks of arduous labor the officials of the state and county departments finished the work of assessing real and personal property as fixed by the state board of equalization. The abstract of the assessment shows that the personal property in the state is valued at \$109,349.43, while the real property is returned as being worth \$7,129,295. The people have paid this year real and personal property valued at \$605,527,720.

Carl Gramme, of Benton, Carver county, while temporarily insane, caused by the loss of sixteen years ago, was arrested in black diphtheria, and the whole family being afflicted with the same disease, left his home in the night with a revolver and apparently in his mind. The body was found in a ditch, although the surrounding country has been carefully searched by the neighbors, but no trace of him has been found.

The case of the state against Everett W. Felt, and A. K. P. Johnson, of the Great West, upon a charge of criminal libel brought against them by John Lithop, ex-secretary of the Alliance state central committee, came up for trial at the district court at Stillwater. Mr. Felt was the only one of the defendants to appear, and he stated that rather than go to the expense of a trial and bringing witnesses to the court of the state he would plead guilty to the charge for himself and also for Mr. Felt, who was unable to attend. The court imposed a fine of \$50 and costs.

Michael Fahy, who lives at Ellsworth, but who owns a good farm seven miles west of Sioux Falls, was about the age of the latter, and was apparently in good health. That night he went to bed at the Commercial house, but soon after arose and began to smash up the furniture in the room. Police officers were called, and with the help of two or three men Fahy was taken from the room in the hope that the fresh air would restore him to his senses. He was taken to the police station, where he was held for a few days, and then released.

A peculiar accident occurred at Duluth. An electric light wire became displaced and rested on one of the supporting wires of the street car. The electric light wire was struck by the street car, and the supporting wire was torn away. In an instant, the cars dropping to the street pavement. A heavy laundry wagon passed by at that time, and the driver, who was engaged in the wheel of the vehicle, in an instant it was wound around the axle and the wagon kept on until the "slack" of the wire was taken up. The car then stopped so suddenly that the horse broke his harness and kept on going, dragging the driver over the dashboard and demolishing the wagon generally. The driver was killed, and a policeman, saw the accident, which transpired in less than a minute, and when the wire fell it cracked like a pistol and emitted a blue streak of fire.

NORTH DAKOTA. Emma Abbott opened the new opera-house at Grand Forks. A rocket was accidentally shot through Joe Hare's plate glass window in Bismarck. The damage is about \$100.

Joe Hughes, of Grand Forks, had his pocket picked of \$150 in cash. Bill Halverson is under arrest as the guilty party.

A young man working for John Stange, at Yankton, hanged in one day, eighty-seven bushels and fifty pounds of corn.

There are several cases of diphtheria at Bismarck, but as quarantine is being enforced it is thought the disease will not spread.

The Grafton and Cavalier branch of the Great Northern have been ordered to stop the last spike driven on the main track.

Old Jimmie Reynolds, who has worked on the Dawson section of the Northern Pacific since the 1850s, died of a heart attack over by the train and one of his legs cut off below the knee.

A fire at Devil's Lake recently consumed Walker's machine and his house, along with four horses, besides two or three small houses.

During the months of September and October 3,400 cases of cholera passed through Bismarck on the Northern Pacific railroad. The stock trains were kept running just as long as the weather permits.

Probably the best wheat in the State—both as to yield and quality—is being raised within a radius of twenty miles of Casselton. It is yielding from fifteen to twenty bushels per acre and most of it grading No. 1 Hard.

Mrs. Anna C. Howland of Fargo, has been granted an absolute divorce by Judge McConnell from William Howard, an Episcopal minister of Pankratz, N. D., on the ground of cruel and inhuman treatment. She has been the custody of her daughter, Florence Sidel, and \$3,500 per year alimony.

While attempting to cross the Northern Pacific bridge in front of a freight train at Grand Forks, an unknown man fell through the bridge to the ground below, killing him instantly. Nothing is known as to who the stranger was or where he came from. It is supposed he was partially intoxicated.

At Fargo, to the southeast by south and seventy degrees above the horizon, one of the most brilliant meteors yet recorded was seen. It was of intense brightness and brilliancy, and in its descent left a trail of fire behind about two degrees in length. Nothing to compare with it was ever seen in the west.

Another county seat fight is in Trall county, N. D. This fall the voters voted in favor of removing the county seat from Grand Forks to Hillboro. On application of several persons a temporary injunction has been ordered preventing the removal. It is expected to be made on an order to show cause why.

AT THE GOAL.

They found him in a silent place. By his own lonely people fair. Where he had been for many years. The light his own had ceased to glare.

Yet in the twilight eyes the white. There seemed some ecstasy of trance. As though he had been for many years. Of more than life's significance.

They looked upon the painted scene. Frenzied with the magic of his mind. The outer world was all around him. That never now should separate him.

Alas—they said—his hand is still. That eluded forth the growing thought. Frenzied with the magic of his mind. That he to deeper meaning wrought.

Alas! alas!—they said—his hand is still. To miss the vision almost found! To fall upon the mountain side. No more the dream of glory found.

But still the dead eyes gazed before. Like one who sees the happy end. And still the face transfigured was. The look that could not be denied.

For they that see him sorrowing bent. And mourned the life he early done. Vied not the smile's pale radiance meant. The dream of glory found.

—Kate Putnam Osmond, in Harper's Weekly.

A DOCTOR'S INHERITANCE.

TWO gentlemen, both past middle age were seated beside a glowing grate fire, chatting as old friends who have met after a long separation. The hour was late, nearly midnight, but no sign of weariness was on either face. The room was a library with well filled book-cases on all sides, a large picture like table in the center and deeply cushioned chairs scattered about. One bookcase contained only medical works in substantial bindings and with marks of service plainly visible.

Dr. Thornton, host and owner of the handsome home in which the room was situated, was a man past 40, with iron gray hair, strongly marked features, a tall erect figure and an expression at once kindly and resolute. You read prompt decision in his dark blue eyes and a sympathy in the pleasant smile that often crossed his lips.

His companion, heavily bearded and bronzed by travel, was a far handsomer man, but with a weaker face. "At last, he said, stretching himself lazily in his deep armchair, "I find you alone and disengaged. Give me permission to stuff a towel into that obtrusive office bell of yours, so that no whining woman or squalling brat can summon you away and make me unhappy."

"Can't be done, Tom. Make the most of me now, for the claims of the whining woman and the squalling brats cannot be denied."

"You know what I want to hear! I tell you twelve years ago a poor man with a struggling almost wholly gratuitous practice, a sworn enemy of luxury and idleness, and ailing for bread! And the money was hers by every claim of humanity."

"At once I commenced to arrange for restoring the property to you, and knowing her pressing needs, instructed my lawyer to supply her with ready money and inform her that as soon as it could be legally done her father's fortune would be restored to her."

"Tom, she flatly refused to take it. She had offended her father and had accepted her punishment, and she would not let any proposal of mine accept his money. In vain I urged the justice of her claim, the burden that money so wrongfully willed away from her would be to me. She threatened to sue me and never return if I persisted."

"While nothing was settled her child died. She grieved as only the mother of an only child can grieve, and yet I knew she could not drop all question of the disputed inheritance in those long months, for her loneliness led her to turn to me for true, loving friend."

"And so, Tom, twelve years had passed, and the little life was sacred memory, no longer a passionate pain to remember, I asked her once more to accept her father's fortune and her own life."

"We need no lawyer then to make the transfer, for I won my wife without losing my inheritance."

"And there goes that contumacious office bell!" said Tom, rising. "So I leave you to your own fate. I am Mrs. Thornton's, in my own mind."

"I was late one bitter night in January when I was routed by the office bell and the sound of excited voices under my window. Hastened down, I found several men carrying out a body, and the doctor, my patient I was to aid, if possible."

"An old man, sir, knocked down by runaway horses and run over, said one of the party as they deposited their burden gently upon a sofa. 'He is not dead,' I'm thinking, doctor, but not dead!"

"Badly hurt, indeed, I found him, and my examination convinced me that any further motion would result in death. I tried to move him, but risk his life by removal to a hospital. With the assistance of two of the men I undressed him and put him into my own bed, noting then that he was not dead."

"Somebody took it off," he told me, and apparently somebody kept it, as it never appeared again. In the trousers pockets were only some trifling articles, a bunch of keys and a handkerchief, but nothing to give any clue to the identity of my patient and unwitting guest."

"I will not enter into the details of the injury, but I must say that the physician and surgeon, as much as they called for my sympathy as a man. There were complications in the case that called upon all my skill and knowledge, and the patient endurance of great suffering made me respect my unfortunate guest from the first."

"It was nearly a fortnight before he recovered from the brain injury, and then he died, not, as I thought, when the sufferer could speak he told me that his name was Fanshawe but said nothing more of himself, and I supposed him unwilling to confess to poverty and inability to pay me for my services."

"I do not take much credit to myself for my hospitality or devotion, because I was so deeply interested in the case. I was so deeply interested in the case that I would have lived on bread and water rather than have it taken out of my hands."

"As he became stronger, my patient became my friend, and I learned to know him by the variety and depth of his information, his experience of travel and charms of conversation."

"Not until he became convalescent and had taken his departure, I knew that he was a man of wealth, living in the house I now occupy."

"To cure him was beyond human skill, but through two years I attended him, alleviating great suffering and often accepting his invitations to spend an hour or two with a lonely old man."

"When he died he left his entire fortune, which I supposed to be mine, only because he had no direct heirs or near relatives. He had never spoken but once of his family, and then said briefly that he was a widower and had lost his only child."

"I had enjoyed my inheritance for more than nine years, when I fell in love. I, who had never cared for female society before, became deeply attached to the mother of one of my patients, and I married her. The widow of an artist, who died in Rome some four or five years before I met her. She had sent for me to

Cheering a Lonesome Man.

"I am a burglar," a man writes to the Athol Globe, "and my late suggestion of the vagaries of a lonesome man, who had been in the city once had. One rainy night I went out from Chicago to rob a house in a suburban town, and effected entrance without much trouble. The house was unoccupied; I had received a tip that the owner's folks were away and that he had gone after them. But I didn't know but that there was a watchman, so I was a little careful in my business. After entering the most of the rooms I concluded that was alone, so I pushed a door and walked in to an upstairs room near the front of the house. Greatly to my surprise I found a man lying in the bed smoking a cigarette. There was a bright moon outside by this time, the sky having cleared, and as he had the shutters open and the blinds up, the room was quite light. It was the proprietor, he was lying in bed, his family until the next day. The fellow was the coolest one I ever saw. He smoked away, apparently enjoying my surprise, but finally he said: 'Well who are you?'"

"I knew I was in for a tussle, so I said I was a burglar—all the while watching him. He made no attempt to move, remaining stretched out on the bed and puffing away at the cigarette. 'I'll tell you what I'll do with you,' he said. 'I'm lonesome and you will amuse me until I'm sleepy you can take any thing you want. I'll show you a room and you can take what you like. What do you say? I supposed the fellow was playing me a trick, but he seemed perfectly in earnest, and I knew I was in for a tussle, so I said I was a burglar—all the while watching him. He made no attempt to move, remaining stretched out on the bed and puffing away at the cigarette. 'I'll tell you what I'll do with you,' he said. From Mr. Chris. Schroder, who was in New York Mills on Monday, we learn that a man was killed by a car on Saturday night, one mile east of the Mills. The wheels cut off one leg at the hip and both feet. The body was found Sunday morning by three strangers who happened to be coming up the track. The body was taken to town and placed in a wooden box, and the coroner notified. The coroner found that the man had been under the influence of drink when killed, and from appearances was suffering from delirium tremens. He had no money or papers in his possession to denote who he was or where he came from. The remains were buried in the box in which it was placed when first found.—Perham Bulletin.

An Unfortunate Accident.

Fred. Clark, formerly a resident of this city, was shot at Mandan on Monday evening, and he died from the effects of the wound on Wednesday afternoon at the Sanitarium in this city. The shooting was an accident and occurred in a public hall in that city where a meeting was in progress to see what could be done to protect the city from the Indians during the recent scare in that region. The room was crowded and directly behind Mr. Clark was a man who had a 45-60 navy revolver in a belt strapped onto him, and in the crush the gun was displaced and fell onto the floor and was discharged, the ball striking the deceased below the shoulder blade and passed through his body diagonally coming out near the right breast. The wounded man was brought to the Brainerd sanitarium for medical treatment, but nothing could be done for him and he died on Wednesday afternoon. He was conscious up to Wednesday morning and rallied just before his death enough to take an afflicting leave of his wife and children.

The deceased was well known in this city where he lived for some years and was in the employ of the Northern Pacific, many of his relatives living here, among whom are George and John Clark, brothers. A wife and four small children were left to mourn his death. The funeral will take place this afternoon at 2:30 from the Baptist church.

Averages for the Season.

The averages made by the different members of the Gun Club are published below and are for the season of 1890. No averages were given parties who shot in less than six regular shoots, or at less than 90 birds. Those who shot at 200 or more birds come in for a chance on the two prizes, a Winchester rifle donated by I. U. White, and a handsome hunting coat donated by Ed. H. White. By glancing over these figures it will be easy to discover who carried off the prizes:

Gypsy Fair.

The ladies of St. Paul's (Episcopal) Church will hold their annual bazaar on Monday and Tuesday next, at the rink. This year the special feature of the bazaar will be a gypsy fair, which they believe will prove as satisfactory and entertaining to their friends as have their previous efforts. A large variety of useful and ornamental articles will be offered for sale, and an excellent opportunity presented to procure Christmas gifts at reasonable rates. Everything will be sold at a fair price. An admission fee of ten cents will be charged. Supper will be served from 5:30 until 8.

The dining room has been enlarged and separate entrances will admit to this room and the main hall, so that those who wish only supper will not be called upon to pay the fee for admission. Prices: Admission to gypsy fair 10 cents; supper, 25 cents; supper with oysters, 35 cents; oysters 15 cents.

A Quiet Wedding at St. Matthias.

A quiet wedding occurred near this place on Tuesday last, the contracting parties being Mr. Ammi Edson and Miss Lydia B. Chaffins. The wedding took place at the residence of Mrs. Mary R. Edson, in the presence of a few invited relatives and friends. The wedding was an informal affair and the happy couple immediately began housekeeping in the pretty home which Mr. Edson had prepared for his bride. Both the bride and groom are well known here and are highly respected. The bride is from Victor, Wright county, this state, where, we understand, most of her relatives reside. Mr. Edson is from Vermont, but is now one of the rising pioneer farmers of Crow Wing county. The couple enter upon their married life under very auspicious circumstances and with the best wishes of all who know them. The marriage ceremony was performed by the writer, a justice of the peace.

St. Matthias, Minn., Nov. 21, '90.

A Turkey Shoot.

The Brainerd Gun Club has decided to give a grand turkey shoot on Thanksgiving Day, on their grounds, at the Driving Park, providing the weather is favorable. The shoot will be at blue-rocks for turkeys. Anyone, whether members of the club or not, can shoot, and a general invitation will be extended to the public.

Notice.

Louis Tache,

Co. Auditor.

The City Council.

The city council met on Monday evening with a full board, excepting Ald. Howe. The minutes of the last regular meeting were read and approved. A communication from M. R. Shedd was read in which he tendered his resignation as superintendent of electric lights, was read and the resignation accepted. The following claims against the city were allowed:

L. E. Weaver	\$17 75
Larson & Walters	1 00
James	1 50
A. T. Daggett	18 00
W. W. Winters	9 00
A. A. Graham	10 00
Tribune	5 63
M. O. Rose	6 00
Richard Rose	3 00

Bill of Gull River Lumber Co. was referred to the finance committee. The matter of placing the dirt taken from the excavation for the basement of the Catholic church was referred to the street committee. The hiring of a superintendent of electric lights was referred to the committee with power to act. Council adjourned.

They Were Hornets.

We were waiting on the depot platform in a new town in Alabama, and as the dozen of us walked up and down some one cried a wasp! nest hanging on a bush across the track. He pointed it out as a wasp's nest, but a short, solid man, who had a head like a cannon ball and a jaw denoting great firmness of character, at once replied:

"I beg your pardon, sir, but you have made the very common mistake of calling the wasps with the horns."

"And I beg your pardon, sir," protested the other, who was a planter, "but horns don't nest that way. They build mud houses under the eaves of the old buildings, and one won't sting you unless you pick him up. My niggers declare that no wasp can sting if he wants to, while, on the contrary, a hornet will."

"I beg to differ with you, sir," interrupted the solid man; "that is a wasp's nest. You are right about the wasp being a peaceful insect, and I think I will take that nest along for a souvenir. They say they are a sure cure for quinsy."

"Do you know a hornet from a wasp?"

"I should remark!"

"Well, when you get through with that nest I want you to tell me whether it was occupied by hornets or wasps. Gentlemen, look out for yourselves!"

"I beg to differ with you, sir," interrupted the solid man; "that is a wasp's nest. You are right about the wasp being a peaceful insect, and I think I will take that nest along for a souvenir. They say they are a sure cure for quinsy."

Not Wearing the Watch.

Chicago Tribune: "We are continually reading of the check of a 'brainerd' said one of them in the Palmer Sunday Saturday evening."

"Why, they are not done here compared to some of the country merchants we meet. They want us to give them every point asked for, and they won't believe half you say. Now, I've sold clothing for twelve years, and my customers know that I do the best I can by them. The cheapest man I ever met keeps a big general store out in Iowa, near Sioux City. I have never sold to him, and when I started out last trip the firm promised me a gold watch if I could sell to this chap. I made up my mind to sell him a small bill, even if I put myself at a personal loss of a hundred or so. His name is Wolf. It is about two weeks ago that I went into his store and introduced myself. I talked for an hour and finally he decided to look over my line. Then he picked out a few goods and asked for my best terms. Of course I gave him thirty days' time."

"That's too short," he said. 'I don't want your goods.'

"Thirty days is all anyone would allow," I pleaded.

"Then keep your clothing," said he, and walked away.

"I went about town and returned in the evening. I was so exasperated I would have given him a good thrashing."

"Well," I said to him, "I've decided to let you take the goods."

"Don't want them."

"I'll give you your own terms."

"You can take the goods, Mr. Wolf, and pay for them when you get good and ready. Just suit yourself about
